

Crystalline Awakening - The Path to Freedom

Time for a LEAP OF CREATION

The crystal essence calls you who are awakening to assist the crystals and the dragons in forming the heart bridge to the New Creation.

Message from the Guardians:

"We have waited - beyond your years for this time. Bring your hearts - this is heart work for those awake enough. There is challenge but great reward in the shift it will bring. Our Mother is waiting. This must be done by Keepers of the New Dreamtime to form the Bridge to the New Creation.

Come - the Time is Now - and hearts are ready.

You have what you need. Remember - it is all within the Heart."

Blue Pot Energy Exchange for Facilitation:

Our intent is to use a process of exchange by which all our needs are met, we all feel cared for and our gifts to each other are honoured and received. We call this process “*working with the blue pot*”. In the Blue Pot, money is alchemically transformed into “golden water” which flows to heal through sharing, caring, loving, giving and receiving. (To learn more about the background of this concept see www.yescarefirst.com). We invite you to join the circle of sharing by caring for us with your financial (and/or other gifts). To give you a guideline of what would care for us, so we can continue our work, we offer a **suggestion of a contribution of \$485**, if you feel called and finances are limited, please don’t feel that you cannot come. Equally, if your heart wants to support our work beyond this, we welcome contributions.

About the Facilitators

Gabriella Kapfer

Gabriella is a sound healer who has developed her own style of vibrational sound weaving and healing with cello, voice and hand-crafted singing bowls. Gabriella calls forth and co-creates with the elements, the nature-spirits and the angelic realms weaving a tapestry of sound from different dimensions, the consciousness of all present and the Earth – leading listeners into a deep transformative experience and connectedness with nature, life and Source. She also teaches and works with sacred stone setting, and has a background in psychotherapy and co-creative gardening. Her background includes co-running a small retreat and healing centre in Scotland based on a ‘care-first’ economic model where she developed her sound-healing work, inspired by the mystery school of nature, which surrounded her. She currently lives in England and travels extensively bringing her healing music and work to different parts of the planet.
